

Dear

We wanted to let you know about the new program we are starting this fall called Step One Weatherization. Step One Weatherization is a home energy reduction program offering weatherization improvements that are inexpensive, easy to do and done in a few hours. These simple tasks may save you a few hundred dollars per year in home energy costs.

We are looking for members who want to **earn** hours helping us perform these tasks on other member homes an/or for members who want to **spend** hours receiving these improvements on their own homes.

Our goal is to provide Step One Weatherization for every member's home in Hour Exchange Portland and make a difference for Mother Earth and for every member's pocket book.

Members would be going to homes in a crew of three and every crew will have a leader to help explain how to do each of the tasks - so no experience is necessary!

Depending on what materials we use (and every house is different) the cost will not exceed \$125 per home. Members who participate will be responsible to pay for these materials.

If you are interested in participating in any way let us know, or call the Hour Exchange and speak to Rob, Kennedy or Terry about this program.

Thanks. We hope to work with you soon!

The Hour Weatherization Co-op and
Hour Exchange Portland
